**Item 7.01 Regulation FD Disclosure**

The information in this Current Report is being furnished pursuant to Item 7.01 and shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. The information in this Current Report shall not be incorporated by reference into any registration statement pursuant to the Securities Act of 1933, as amended.

In advance of meetings with investors next week, PepsiCo today reaffirmed its 2005 52-week guidance of mid-single digit volume and net revenue growth, and approximately 8% division operating profit growth. The company also reaffirmed that it expects to deliver 52-week 2005 EPS of at least \$2.56, with cash from operating activities of approximately \$5.7 billion and net capital spending of approximately \$1.6 billion. Including the impact of the 53<sup>rd</sup> week, the company expects at least mid-single digit net revenue growth, approximately 10% division operating profit growth, EPS of at least \$2.60, cash from operating activities of at least \$5.7 billion and net capital spending of approximately \$1.6 billion.

The company also reaffirmed that it expects to repurchase shares of its common stock in the amount of \$2.5-\$3.0 billion in 2005.

**Reconciliation of GAAP and Non-GAAP Information**

In 2005, we will have an additional week of results (53<sup>rd</sup> week) as our fiscal year ends on the last Saturday of each December, resulting in an additional week of results every five or six years. Earnings per share, net revenue growth and division operating profit, all excluding the impact of the 53<sup>rd</sup> week of results in 2005, are not measures defined by generally accepted accounting principles (GAAP). We believe investors should consider these measures excluding the 53<sup>rd</sup> week of results in 2005, since these measures are more comparable to prior years and more indicative of our ongoing annual performance.

Management operating cash flow is the primary measure management uses to monitor cash flow performance. It is not a measure defined under GAAP. Since net capital spending is essential to our product innovation initiatives and maintaining our operational capabilities, we believe that it is a recurring and necessary use of cash. As such, we believe investors should also consider net capital spending when evaluating our cash from operating activities. Further, management operating cash flow excluding the impact of the 53<sup>rd</sup> week in 2005 is not a measure defined by GAAP. We believe investors should consider our management operating cash flow without the impact of the 53<sup>rd</sup> week in 2005 since it is more comparable to prior years and more indicative of our ongoing annual performance.

## 2005 Guidance Reconciliation

	Estimated 52 Weeks	Impact of 53 <sup>rd</sup> Week	Estimated 53 Weeks
Net Revenue Growth	Mid single digits	1-2%	At least mid single digits
Division Operating Profit	~8%	~2%	~10%
Diluted EPS	\$2.56+	\$0.04-\$0.05	\$2.60+
Operating Cash Flow	\$5.7B	~\$0.05B	\$5.7B+
Less: Net Capital Spending	1.6B	Minimal	1.6B
Management OCF	\$4.1B	~\$0.05B	\$4.1B+

We are evaluating whether to repatriate international cash in 2005 under the provisions of the American Jobs Creation Act (the “AJCA”). Our earnings guidance does not include the potential impact of the AJCA.

### Cautionary Statement
